

Sarah's Challenge.

Sarah managed to raise a total of £1,197, £500 to the Cleveland Unit and £697 to the neonatal unit, both are based in James Cook hospital.

In her life Sarah has benefited from both units. Sarah had a difficult birth, it was touch and go at one point if she lived, but with the skill and determination of the neonatal unit she survived. After she was born and being diagnosed with cerebral palsy she spent a few years at the Cleveland Unit being assessed to determine the best way forward. They certainly gave Sarah the foundations and has achieved many things, but just this week I was the proudest Grandad when she past her driving test. Again many thanks to those who sponsored Sarah and helped on the climb up Roseberry Topping.
